James Thomas My deepest prayers go out to the family, im sorry for your lost.I started building power lines in 1985 and Haystack worked on the crew, Dave Franklin's crew with Richardson and Waylon. Haystack taught me to be a safe and productive journeyman lineman.I went threw my 3 year apprenticeship with Stack.We worked together for 8 years. I was very fortunate to start linework on the same crew haystack was on. Haystack could build powerlines blindfolded. Haystack ,Mark Raines and I set 19 poles in 1 day.I have never come close to breaking that record of setting so many poles in 1-10 hr. Work day,and that was before the hydraulic tamp eror had began.We used 2 hand tamps and 1 fast shovel. Threw my 28 yrs. Of building power lines .I greatly appreciate starting starting with Haystack!! He set The foundation for me being a safe productive journeyman lineman.James Thomas

Dear Theresa, Hope and family, Jerry and I were saddened to hear of Mr. Hutton's(or Haystack as Jerry will always think of him) passing. I was always happy to see Mr. Hutton come into Dr. Powell's office. He always had a quick smile and shared something that would make us laugh. May your memories bring you joy and God bring you peace and comfort as you begin this new season in your lives. Blessings to you all, Jerry and Dina Thompson

I am so sad to hear about Uncle Bill. He was a good dude. He was very supportive during our untimely passing of both our Father, Mother and later siblings. Sadly I never conveyed those feelings to him. Rest in peace Uncle Bill, the world lost a good one! Rusty
