Uncle Danny – Tammy My Uncle Danny was always there for me from when I was a little girl even till the day he left us. I lost the only man that was a constant in my life, which I could confide in, get advice he was just always there for me and Brett.You may not know that Uncle Danny loved playing the guitar and taught himself though quite shy he would not play in front of you but he did with me .I loved to listen to him play and cherished those moments. Danny and Beth are my best friends. We went to concerts together hung out on weekends. We had many special moments and milestones together.When Brett came along Danny took Brett under his wing to be a father figure for both of us really.Brett will tell his things next. But it meant so much for me all these years that my Uncle was always there lots of memories and milestones and just memories of all the things we shared.Danny and Beth showed me that there can be true love, people do stay together forever that life does have it's ups and downs and you can get through it.Also that there are decant men in this world hard and few to come by but I have always look for traits in a man such as Danny for me.I will always have you in my heart and will be there for your children, wife and grandchildren and will let them know of the great man you were. I think this is by far my deepest lose and very hard to handle. Please continue to watch over us and guide us I will always look for the signs. I love you and miss you Uncle Danny you where the world to me.
