Fred, Becky, and Family, I just want to say how very sorry I am for the loss of Roy. She was a very special person. She always loved her flowers. Being out there in the yard and planting her flowers and making sure they were right where they needed to be. She had a great sense of humor, and really funny in her own special way. She enjoyed singing and dancing at your house when you did karaoke . That was a lot of fun back in the day. She is just a very special angel. And she always will be. She was also a very strong lady. I will miss her. But just remember that the angel will always be there watching over her family and being proud of what you all have become. She always kept a smile on her face and kept smiles on everyone else's face. I was proud to have known such a great lady. Love Pee Wee Smith.

I am so very lucky to be able to call this wonderful women Meme. She came into my life at the same time that her daughter Linda the women I call my mother did. I was a young girl 9 years of age. I learned quickly how much love they had to offer. I have so many memories my favorite was being able to call in "sick" to school just so I could go shopping for the day with them. I had not seen meme in almost 20 years and I decided to take the trip down with my children and it was to celebrate milestone birthdays Rollie's 40th and my 40th soon to follow and meme's. I am thankful for that visit because she was able to meet my children and we were able to have beer and smokes together. No one could cut a rug like you meme.. Thank you for giving me the most amazing family and memories of my childhood.All my love,Angela Nicoli

I was very fortunate to have met Roy several years ago, as I entered into her extended family and she always made me feel so very welcomed. I loved her smile and laughter. She loved her grandchildren and great grandchildren dearly, as they loved her. I know that you are happy and healthy now and spending time with Linda, thank you both so much for the family you gave me and know that I will cherish them. Until I see you again, save me a beer and a smoke...you will be greatly missed!Your friendSharon

Meme was the best! As a kid growing up in New England I was able to spend a lot time with her on the Holidays or whenever my mother would bring her shopping. I remember meme not having one single credit card and after being convinced by my mother to apply, 6 months later she had 10! They always looked good that's for sure. I remember the times sitting in her apartment in Lowell as a kid and never getting bored with her, we would just sit in a room for hours and do nothing but talk and laugh. Lots of things as a kid I never understood when going to visit meme like why do I have to ring this buzzer to get into her apartment? Same reason I wasn't allowed to play outside, it was in Lowell. Why does meme take a taxi everywhere she is defiantly old enough to drive. Her sense of humor was awesome and she defiantly loved her family and was loved by them also. My most important memory is the day she lost her daughter and I lost my mother, meme was the one to tell me and I wouldn't have wanted it to come from anyone else. We both lost a lot that day and shared a bond that has never been broken. My children and wife have never known my mother but defiantly knows and loves the next best thing and can only gauge who my mother was as a person based off of what a wonderful women meme was. Love you Meme and thank you for everything!

I have. So many memories of my mom. My mom loved to sing and dance, I remember her twisting to the peppermint twist, and singing all the latest pop songs from the fifty s and sixtys. Her favorite movies were , The Rob and the 10 commandments. She loved soap opera's and game shows, her favorite base ball team was the Boston Red Soxs. My mom loved to cook and entertain for family and friends. She was a great cook ! And a awesome host. These are only a few of the many good memories I have of her. I will miss her dearly. I love everything about Meme and am grateful for the memories we made.....from her stories of Linda that helped me 'know' her, to the times she spent with our kids and her crazy, fun stay with us in Richmond shortly after Rex was born. I loved her laugh, how she loved all of us, and the bond she shared with Bobby. I love that I can still feel her super tight hugs, will never forget that wicked accent and that my daughter will always know she was the only one to call her, 'Ahhden' (when we told Arden of her passing, she so quietly said, 'I'll never hear her say 'Ahhden' again"- I'm so grateful our kids will remember Meme- and all the love she gave! May her beautiful soul rest in peace- with smokes & 3 beers close by. We love you' miss you and will most definitely NEVER forget you!

Roy and I shared many memories of her childhood, her sisters, raising her family. We would sit in her room put puzzles together, sit on the back porch, (that she loved so much), talk and laugh, she loved Simon and Daisy (Our Dogs)she loved spoiling them, loosing her will truly be hard. She lived with Fred and me for 19 Years. She has always been there, helping me, through sadness and laughter, as I was for her. We would go shopping, go get pedicures. You are Missed by me so much and I will always love you. R.I.P. My Dear Friend, and my Second Mom.
