In loving memory of my former sister-in-law. Even though life changed our paths over the years, I will always cherish the time we were family. You were someone who brought warmth, laughter, and kindness into the lives around you. I'm grateful for the memories we shared and the moments that will always stay in my heart. You were more than just a title—you were part of a chapter of my life that I will always remember with care and respect. May you rest peacefully. My thoughts and prayers are with everyone who loved you. You will be remembered with love.

I've known Keri for many years at Micron,never afraid to take on a challenge nor be afraid to bring the laughter and magnificent sarcasm to a party!! There were so many good times and laughter because of her presence. I am guilty of losing touch with her in the past two years but I'm sure she fought hard to overcome her illness and made her family proud as hell, as she always did. I'm sure I speak for many saying we will miss her humor, smile, loyalty and friendship. My condolences to the family for such a huge loss and one much too early in life. Take solace in all the fabulous memories and be assured Keri made a positive impact on everyone she met. Rest in peace Keri,Vinnie Ardovino

"Keri was not only a wonderful colleague, but also someone who made people feel welcomed and appreciated. When I first joined the Facilities Operations team, she greeted me with a small cactus plant—a simple gesture that meant a great deal to me. I've kept that plant ever since, even through leaving and returning to the department. It has become a reminder of her kindness and the way she touched the people around her. She will truly be missed."

My mom was a truly radiant and vibrant person outside of her illnesses. Her humor could get her in trouble—but oh boy, did it make her some great friends and pull her into the right social crowds. She knew how to have a good time back then, and I am lucky to remember many, many good times. I'm incredibly grateful to have known so many versions of my mother—but there are still so, so many versions of her pre-motherhood or in her outside-of-home persona that I never got to meet and I absolutely love hearing about. She could be a pistol or a flower petal—sometimes both in the same day. 😊 I'm incredibly lucky to have recordings of her laugh and photos of her smile, her Davis dimples will live on in Lucas and me (and many others in the Davis lineage). I, among many others, will miss her smile and her laugh for the rest of my life. I would love to hear what version of my mom you knew 🌟

I'm deeply saddened by the loss of Keri. She was truly a joy to be around—always bringing a can-do attitude, a fun and uplifting spirit, and an ability to connect with everyone she worked with. Keri made our days brighter and our team stronger. Even during the hard days, she was a trooper and did her best to keep things positive for the team. Her presence will be greatly missed. My prayers are with all who knew and loved her.
